The mission and the vision of Save Latin America, Inc. is bound to the vision and mission that the forefathers of our native histories imposed upon their own lives: freedom, well-being, personal realization, an existence that is totally and authentically human.

Therefore, it is in accordance with its nature that Save Latin America, Inc. bestows the awards with which it gives the seal of approval to the efforts, sacrifices and achievements of men and women of Hispanic descent who shine with their own light in this great nation.

Wherever there is a Hispanic whose merits must be emphasized, Save Latin America, Inc. will be there because that is exactly why it was created — to be the voice that encourages you during the long road that leads to success.

“Los Tres Próceres Antillanos” is one of the most important awards that we present to the community. Therefore, we use very strict selection criteria.

Offering our congratulations and respect to those who are being honored today, We are proud to present them as examples to the rest of the community.

Pedro

SAVE LATIN AMERICA INC.

Save Latin America is a non-profit organization whose mission is to serve the Hispanic communities of New Jersey by providing better access to information regarding education, housing, health care, and other social services as well as opportunities for economic development. We also seek to promote tourism and investments in our Latin American countries while educating the Hispanic communities regarding their rights and responsibilities as residents of the United States. We propose to do these things while promoting and conserving the cultural values and rich heritage that make us Hispanic.

**We need your support to inform and
unite our community.**

This event is co-sponsored by:

- Café Bustelo
- Palisade Medical Center
